DRAFT AUTHORIZATION FORM

As a member of Palmetto Electric Cooperative, Inc., herein after called PECEI, I hereby authorize PECEI to draw a monthly draft on my account for the total amount due on the fluctuating due date indicated on my monthly PECEI statement. I acknowledge that the origination of ACH transactions to my account must comply with the provisions of U. S. law. I certify that I am an authorized user of this credit/debit card or bank account, and that I will not dispute the payment with my Credit/Debit Card Company or Bank, so long as the transaction corresponds to the terms indicated in this form. If you are giving authorization for someone other than the electric account holder, we will need written authorization and contact information from the electric account holder, along with the payee's information. This will remain in effect until I cancel my Draft Authorization. In the event of cancellation due to consumer request, it must be submitted 10 working days prior to the PECEI statement draft date. PECEI reserves the right to cancel this agreement at any time due to payment history. PECEI will charge an administrative fee of \$25.00 for any draft that is returned by your financial institution; additional fees may be charged by your financial institution.

Dear Member,

The Board of Directors of Palmetto Electric Cooperative is pleased to announce the retirement of 30.15% of the Capital Credits earned in 2007, 32.61% of 2008 and 80.58% of 2022. Capital Credits reflect the difference between Palmetto Electric's revenues and expenses, and are periodically returned to consumers upon approval by the Cooperative's Board of Directors. As a member of Palmetto Electric during the years 2007, 2008 and/or 2022, you were allocated Capital Credits that are now being distributed.

Please note, on this month's bill you received a credit for your Capital Credits retired in 2023 for the years listed above. This bill credit in lieu of issuing a check to you is another green initiative by Palmetto Electric Cooperative to conserve resources and reduce costs.

This Capital Credits bill credit in the amount of \$22.00 is just one of the many benefits of being a member of Palmetto Electric Cooperative, Your Touchstone Energy Partner. We hope you enjoy this year's "return on your investment."

Sincerely,

Jeremiah E. Vaigneur

Re: (Member name)
Member # _____

Dear (PR's name):

Once a member is deceased you have an option to retire the capital credits earned under the decedent's name. I have enclosed the paperwork necessary for the capital credits in the above referenced account to be cleared out. In order for us to continue with the process of clearing out this account, the following documents indicated must be submitted.

- Name of person who continues the account. INACTIVE ACCOUNT**
- Copy of the Death Certificate**
- Copy of Letter of Administration or document naming Personal Representative (** A Power of Attorney is NOT acceptable) or an Affidavit of Inheritance of Capital Credits with Palmetto Electric Coop., Inc. (enclosed)**
- Request for capital credit payment (enclosed)**

Upon receipt of the above, this account will be processed for payment with approval of the Board of Directors.

If you have any questions regarding the purpose of this letter or the requested documentation, please feel free to contact me at 843-726-9606.

Sincerely,

Caitlin H. Bryan

Water Heater Repairs

Free water heater repairs as long as the off-peak switch remains connected to your water heater. See section 7 of the Term and Conditions for details.

TERMS AND CONDITIONS

H2O Select®

Palmetto Electric Cooperative, Inc. ("PEC") is offering a residential off,peak water heating program ("H2O Select") to provide qualifying members the opportunity to receive rebates and or incentives for participating. The terms and conditions below ("Terms and Conditions") set forth the enrollment requirements and details related to rebates and incentives members may receive. By signing, member agrees to comply with and be bound by the Terms and Conditions.

TERMS AND CONDITIONS

1. To qualify for a Rebate, Turn Key Option and other incentives under the H2O Select program, the service location must be serviced by Palmetto Electric Cooperative, Inc. The property owner must complete an enrollment application, allow an off peak switch(s) to be attached to each water heater in the

home and abide by the Terms and Conditions.

2. PEC will connect an “off-peak switch” when notified that a new tank has been installed. Customer must allow off-peak switches to remain a functioning part of the water heating system and purchase electric energy for water heating from PEC for a minimum of 10 years. Customer can receive maximum qualifying rebate only once per 10 year term. Rebates are paid per home, not per water heater. Customer can choose a rebate or Turn Key Option but not both. Turn Key Options have the rebate incentives built into the pricing.

3. If for any reason customer removes the off-peak switch or ceases receiving electric energy from PEC for water heating, Customer is no longer eligible to be enrolled in this program and any outstanding sums, advanced or loaned by PEC, together with interest, if applicable, shall immediately become due and payable to PEC.

4. Peak control periods: Water heaters will be cycled off with the off-peak switch as needed, up to 5 hours per day and averaging about 5 days per month. If needed by PEC, customer grants permission to monitor and control the off-peak switch through the customer's Wi-Fi network.

5. A conversion bonus rebate is available for homeowners that converted from gas to electric water heating.

6. A new home bonus rebate is available for home builders that build a new home with H2O Select electric water heating. For a newly constructed home, rebate may be paid to either the general contractor, developer or homebuyer. New homes must comply with PEC **Installation Requirements**, see section 10.

7. PEC will provide *free water heater repair service* for each new water heater enrolled in the program as long as the off-peak switch remains installed. This service includes service calls, diagnostic inspection, and replacement of defective parts; limited to standard elements, thermostats, high temperature limit switch, pressure relief valve, vacuum valve, drain valve, internal wiring and off-peak switch. After the first 60 months, parts coverage is limited to thermostats, off-peak switch and wiring. This service is transferable if the home is sold.

8. Customer must report any water heating problem or maintenance issue to PEC in order to receive the free water heater repair service.

9. Water heaters must comply with H2O Select installation requirements as well as all state and local codes.

10. **Installation Requirements:** Only new electric storage water heaters, 50 gallons or larger with elements maximum of 4500 watts will be accepted. Tank capacity needed is dependent on number of occupants, home size, and type of use (residence, vacation, or rental). Dual or multiple tank systems may be used to meet storage needs. Installations must meet local codes and program requirements. Permits may be required. Electric supply wire must be copper, size 10-2 AWG with ground, and connected to a 30 amp two pole breaker. An electric disconnect box is required at the water heater unless it is in line of sight from the main breaker panel. Hot and cold water lines should be insulated at least two feet from tank. Use of a circulation loop pump is not recommend. Water heaters must not block access to electrical panels, HVAC units, or other equipment, and must be placed for easy access to element cover plates. The temperature and pressure relief valve must properly terminate into drain pan or outdoors. A drain pan and drain line is needed when a water heater is installed in a location where water leakage could cause damage. To prevent “rotten egg” smell from occurring, PEC recommends use of water heaters that do not have an anode rod. For closed plumbing systems, a thermal expansion device may be needed. PEC will

connect the “off-peak switch” when notified that the new tank is ready.

11. Mobile home customers must own the land on which the home resides, and the home must be attached to a permanent foundation.

12. During the program term, PEC must be allowed to periodically inspect water heater(s) to insure proper operation and program compliance.

13. **H2O Select Turn Key Option:** PEC provides a new electric water heater (50 gallons or larger), “**basic installation**”, disposal of old tank, and a 60 month payment contract that will be added to the electric account. This option is for replacement systems only. The property owner must be a PEC member at this location and have a good payment history to be eligible for this option. Advance Pay customers are not eligible for 60 month payment option but may pay total contract price in advance to qualify. If additional labor and materials are required to install tank beyond what is included in “Basic Installation,” the customer will be notified in advance of the extra cost needed and given the option to agree or cancel. Please allow 1 to 4 weeks for tank installation. If the customer’s account is closed for any reason during the 60-month term, the balance of the contract will become due upon the final account statement. The total contract price may be paid in advance in order to qualify when the homeowner does not have an active PEC account. Contract may not be transferred to another location or name except in the event of account name change due to a change in marital status or death of a homeowner.

Basic Installation will be completed by a professional plumbing contractor and includes the following scope of work:

- a) Delivery of a new water heater to the site.
- b) Disconnect old plumbing and wiring from the old tank.
- c) Drain and remove the old tank. (Leaking tanks may need air dry on site before complete removal.)
- d) Install a new plastic drain pan if needed in the original tank location. Place new water heater in pan.
- e) Re-configure water lines for connection to height of the new water heater.
- f) Connect water lines and install accessories including a new water shut-off valve and a thermal expansion device if needed.
- g) Insulate first two feet of water lines.
- h) Install wiring and new electric disconnect box if needed and connect off-peak switch.
- i) Fill new tank with water and purge all air. Re-energize water heater and check for proper operation.
- j) Clean up installation area and haul away the old tank and any job trash.

Basic Installation does NOT include any of the following: water damage clean up, repairs to floor, walls, or ceiling, re-location of tank, installation of or repairs to drain line for the drain pan, disassembly of the old tank needed for removal, removal of doors, trim, attic steps, appliances, etc. for access.

Drain line installation is available for extra charge and includes up to 10 feet of PVC piping.

Metal pans are available for an extra charge.

14. This program may end or change without notice at any time.

Rev. 1/24

H2O Select Enrollment Agreement

Customer agrees to have Palmetto Electric Cooperative, (PEC) install an off-peak switch(s) on the electric water heating system at the above location. Customer understands program incentives will be awarded only if the water heating system meets the program Terms and Conditions.

Customer also understands that PEC shall have the right at reasonable times to inspect the system to insure proper operation and program compliance.

Customer agrees to report any problem or necessary maintenance regarding the water heating system. Customer agrees to allow the off-peak switch(s) to remain a functioning part of the water heating system and to purchase electric energy from PEC for a minimum period of ten (10) years from the date enrolled in this program. If for any reason Customer removes the off-peak switch or ceases receiving electric energy from PEC for water heating or other home needs, Customer is no longer eligible to be enrolled in this program and any outstanding sums, advanced or loaned by PEC, together with interest, if applicable, shall immediately become due and payable to PEC.

Customer further understand that if the Turn Key option was selected, a monthly fee will appear as a separate line item on the electric bill and will be included in the total amount due to Palmetto Electric each month for 60 months.

Palmetto Electric Cooperative may end or change this program without notice at any time.

By clicking and/or signing below, I acknowledge that I have read and understand the H2O Select Enrollment Agreement and agree to compile with all Terms and Conditions set forth.

Primary Surge Protection Options

Meter Based Surge Protection Device (MB-SPD)

"Helps stop power surges at the electric meter"

Includes:

- Utility Grade Type 1 surge protection device
- Fits standard non-CT meter service 120/240V 1 or 3P up to 600A
- Grounding inspection
- Standard installation

- Limited equipment warranty against surge damage* ([see mfg. warranty](#))
- Service call if surge event occurs
- Upgrade replacement as needed
- **\$5.95 / month with 36 month contract**

Yes, I want the Meter Based Surge Protection Device for \$5.95 per month with a 36 month minimum contract.

Communication Line surge protection

"Helps stop Cable TV, Phone, and Internet lines power surges at the service point."

Includes:

- Utility grade surge protection device (see spec: [CLT](#) and [TLT](#))
- Basic installation at the service point outside
- Grounding inspection

I want Communication Line Surge Protection....

Attention: If you have high speed "fiber optic" internet or video service, the communication line option is NOT recommended. Use point-of-use devices instead.

SURGE GUARD PARTICIPATION AGREEMENT

Click here to read the complete Participation Agreement.

SURGE GUARD PARTICIPATION AGREEMENT

This agreement is between Palmetto Electric Cooperative, Inc. (PECI) and the customer-signer of this document. The Customer acknowledges that he/she understands and agrees to abide by these terms and conditions for a minimum of three (3) years. After the initial three (3) year period the agreement shall automatically be renewed on a month to month basis until terminated by either party.

1. Palmetto Electric Cooperative, Inc. shall install a Meter Base Surge Protector Device (MB-SPD), as well as other SPDs (phone, cable, etc.) that the customer selects and related materials at the service address.
2. Prior to installation of the MB-SPD, a PECI designated representative will inspect the home's external electrical grounding system to verify that a proper external safety ground exists at the service entrance. If the utility's representative should determine that any of the building's electrical grounding system or wiring is inadequate for the proper installation and operation of the MB-SPDs, PECI reserves the right to refuse installation until such time as necessary conditions are made correct.
3. The MB-SPD can only be installed, serviced or removed by a PECI designated representative. The MB-SPD is an integral part of the sealed electric meter or adjacent equipment and shall remain the property of Palmetto Electric Cooperative, Inc. PECI may periodically inspect, perform maintenance, and/or upgrade MB-SPD as needed to ensure proper operation.
4. A monthly fee for the MB-SPD system plus fees for any additional SPDs selected will appear as a separate line item on your electric bill and will be included in the total amount due to Palmetto Electric. Non-payment of this fee will be considered the same as nonpayment of the customer's monthly electric bill and will entitle Palmetto Electric to discontinue electric service to the customer in accordance with established collection procedures. Payments must be current before any repairs, replacements, or warranty coverage will be in effect.
5. If the customer moves and/or closes his account, he may transfer this service to another location or cancel this agreement without penalty.
6. If the customer elects to discontinue this surge protection service (MB-SPD) prior to the term date, the customer will be required to pay an Exit Fee of \$100. Customer must submit a written request to cancel this service.
7. In all cases involving termination, PECI reserves the right to reclaim and retrieve the MB-SPD and related materials. If the surge protection service is terminated and the MB-SPD is left attached to the electric service, PECI disclaims all liability and warranty related to the MB-SPD after the termination.
8. PECI reserves the right to terminate the Surge Guard Program and this agreement within 30 days of written notice. Furthermore, PECI reserves the right to modify this offering at any time.
9. In the event of any problem or failure of the installed MB-SPD, the customer shall notify PECI. PECI or it's agent may inspect all damaged appliance(s), premise's wiring, and any other electrical equipment located at the premises.
10. Any warranties provided are from the MB-SPD and other SPD manufacturers ([available upon request](#)) and are provided to the customer for as long as the service remains in effect. The manufacturer's warranties do not cover nor will PECI be responsible for damages resulting from near direct lightning strikes or interruptions of electric service. PECI makes no warranties, expressed or implied, regarding the

installation or function of any of the SPDs. The customer understands that the MB-SPD is strictly a power line surge suppressor and will not prevent damage from power surges which enter the building through telephone wires, cable or satellite television wires, antennas, outside branch circuits or other paths or from prolonged over or under voltage events. The customer shall hold PECE harmless in connection with the operation, service, and installation of all SPDs. Customer shall hold PECE harmless for the cost of any service call from the phone or cable company that relates to an SPD. In the event the protective effectiveness of the MB-SPD should be interrupted or fail for any reason, PECE's obligation shall be to repair or replace the MB-SPD(s) in accordance with this agreement. Such interruption or failure shall not constitute a breach of this agreement, nor shall PECE, its officers, directors or employees be liable to the customer or to third parties for any damages which might result from such interruption or failure.

11. Customer understands MB-SPD is not a lightning protection system and under no circumstances will PECE guarantee performance against a direct or nearby lightning strike. Customer acknowledges that Surge Guard is NOT an insurance program. * Electric meter or main disconnect as well as the telephone, cable, or satellite connection points must be located on the exterior of the building. Primary protection options include installation and a grounding inspection.

SG 0617

I have read and understand this Surge Guard Participation Agreement and agree to the terms and conditions set forth. I understand MB-SPD is not a lightning protection system or insurance, and under no circumstances will PECE guarantee performance against a direct or nearby lightning strike. I further understand that a monthly fee for the MB-SPD system plus fees for any additional SPDs selected will appear as a separate line item on my electric bill and will be included in the total amount due to Palmetto Electric for a minimum of 36 months.

By clicking here and/or signing below, I confirm that I understand and agree to all terms and conditions set forth in the Surge Guard Participation Agreement.

TERMS & CONDITIONS

Smart Thermostat Enrollment Agreement

Member has read and understands the Smart Thermostat program Term and Conditions. Member agrees that program incentives will be awarded only for compliance with program Terms and Conditions.

Member hereby grants permission to PEC, Central Electric Power Cooperative, Inc. ("Central") to monitor and adjust the thermostat settings during high energy load periods through the member's Wi-Fi system.

Member hereby releases Palmetto Electric Cooperative, Inc. and Central Electric Power Cooperative, Inc from and against any and all liability, claims or actions of any kind whatsoever for injuries, damages, or losses to persons or property which may be sustained in connection with the services provided hereunder.

Member agrees that any and all disputes which cannot be resolved between Member and PEC and CENTRAL and any cause of action arising out of or connected with the services provided hereunder, shall be resolved individually, without resort to any form of class action, exclusively before a court located in South Carolina having jurisdiction. Further, in any such dispute, under no circumstances will member be permitted to obtain awards for, and hereby waives all rights to claim punitive, incidental, or consequential damages, including reasonable attorneys' fees, and member further waives all rights to have damages multiplied or increased. Palmetto Electric Cooperative may end or change this program without notice at any time.

If member elects to cancel program enrollment, closes the electric account, or becomes out of compliance with these terms and conditions for any reason during the 3 year term, member will be charged an exit fee up to \$200 per thermostat.

Show Terms & Conditions

SMART THERMOSTAT Program

Palmetto Electric Cooperative, Inc. ("PEC") is offering a residential peak control smart thermostat program to provide qualifying members the opportunity to receive incentives for participating. The terms and conditions below ("Terms and Conditions") set forth the enrollment requirements, program procedures and details related to incentives members may receive. By signing and joining the program member agrees to comply with and be bound by the Terms and Conditions.

TERMS AND CONDITIONS

1. To qualify for the program incentives, the service location must be serviced by Palmetto Electric

Cooperative, Inc., homeowner or tenant must be a Palmetto Electric Cooperative member with an active account in good standing at the location listed on the enrollment form, complete an enrollment application and abide by all Terms and Conditions.

2. For a minimum of three 36 months, members that receive a thermostat from PEC's Smart Thermostat Program must ensure that the thermostat remains a functioning part of the home's heating and air conditioning system and connected to homes wi-fi system. Member that "Bring Your Own Thermostat" (BYOT) must remain in the program for a minimum of 12 months to be eligible for incentives. Only approved models of smart thermostats may participate.

3. Member must grant permission to PEC to monitor and adjust the settings on thermostat during high energy load periods through the member's Wi-Fi system.

4. Member must have and maintain an active Wi-Fi internet subscription service and allow the smart thermostat to be connected to the service at all times. Some thermostat require the wi-fi router to broadcast on a 2.4 GHz network. Wireless or Hot Spot Wi-Fi service will not be compatible with most smart thermostats. *If you have a dual-band router, you may need to change settings to connect to the 2.4 GHz band—not the 5GHz band.*

5. Energy saving events: There will be up to six events per month. During each event, the thermostat's temperature settings will be adjusted as needed, up to 4 degrees above or below member's desired setting. To help improve comfort during the events, 2 degrees of pre-cooling or pre-heating will be utilized. See Energy Saving Event Strategy for details.

6. Event Opt-Out: Prior to each event, a notification message will be sent from the thermostat manufacturer via the thermostat, email, text or mobile app. This notification will provide notice of an upcoming event.

7. Member can opt-out of Energy Saving Events any time after an event has started. However, if a member opts-out more than 30% of the events or if the thermostat becomes disconnected from the internet, future incentives will be voided, and enrollment in the program may be cancelled plus member may be subject to exit fee in section 14.

8. Member will receive monthly incentives, Smart Rewards, based on energy saving event participation percentage. Homes with **gas heating systems are not eligible for monthly incentives, Smart Rewards.** Maximum of two thermostats per household will be eligible for Smart Reward monthly incentives. A "zoned system" with more than one thermostat is eligible for only one monthly incentive. Incentives may be awarded as a bill credit or other type as selected by PEC. Incentives are subject to change.

9. Monthly incentives, Smart Rewards, are only guaranteed for 3 years from member enrollment date in this program.

10. All thermostat must be connected per mfg. specifications and all state and local codes. Some smart thermostats may not support proprietary features. Depending on the make and model of your equipment, you may need to contact your equipment manufacturer to verify compatibility. Non-compatible systems may include units with proprietary communicating thermostats, variable speed fans or compressors along with accessories.

11. For any ecobee thermostat issues, member should contact the [ecobee Help Center](#) for technical support at 877-932-6233 or contact a qualified HVAC service company. Neither Palmetto Electric nor the

thermostat installer will provide repairs or operational training for the thermostat or the HVAC system.

12. Mobile-home customers must own the land on which the home resides, and the home must be attached to a permanent foundation.

13. During the program term, PEC must be allowed to inspect the thermostat as needed to insure proper operation and program compliance.

14. Exit Fee: If member elects to cancel program enrollment, close their electric account, or becomes out of compliance with these terms and conditions for any reason during the 3-year term, member will be charged an exit fee up to \$200 per thermostat. For BYOT members, exit fee is \$50 and term is 12 months. Additionally, All Smart Rewards bill credit will be canceled.

15. PEC makes no warranty or guarantee on the enrolled smart thermostat, installation, operation of HVAC system, or energy savings. Under certain conditions energy use may increase.

16. This program may end or change without notice at any time.

Rev. 01/01/23

Energy Saving Event Strategy:

During the peak energy periods, the ecobee thermostat's temperature settings will be adjusted as needed, up to 4 degrees above or below your desired setting. Up to 6 events may occur per month. You will be notified by email prior to an upcoming energy saving event and will have the opportunity to opt-out of the event if needed after the event starts. However, if you opt-out and override more than 30% of the energy saving events, future monthly incentives will be voided, enrollment in the program will be cancelled and you may be subject to the exit fee.

Summer Events

Hour 1: setting is raised 2 degrees above the original setting.

Hour 2: setting is raised an addition 1 degree.

*Hour 3: setting is raised an addition 1 degree.**

Hour 4: setting is return to normal program.

Winter Events

Hour 1: setting is lowered 2 degrees below the original setting.

Hour 2: setting is lowered an addition 1 degree.

Hour 3: setting is lowered an addition 1 degree.*

Hour 4: setting is return to normal program.

*This additional 1 degree will be omitted on weekends and holidays.

Thermostats in this section do NOT include a discount!

Product	Quantity	Item Total
ecobee Premium - \$200.00	1	\$200.00

WARNING: While ecobee thermostats are compatible with most HVAC systems, there are some systems and/or equipment add-on's or accessories that may not be compatible. Please verify your systems work with ecobee thermostats before ordering. Check with your equipment dealer or [CLICK HERE](#) to ensure your systems are compatible with ecobee Enhanced or Premium models.

I understand that if my systems are not compatible, and/or the ecobee thermostats can't be connected for any reason, I may be charged a trip fee.

Thermostat Installer

Installer	Quantity	Item Total	Installation Discount
May River Home Service* - \$125.00	4	\$500.00	(\$250.00)

****The approved thermostat installer will contact you to schedule an***

appointment. Standard thermostat installation includes up to one hour of labor; additional time or call backs may result in a service charge from the installer. The installer will provide a basic operation overview but will NOT provide App training or tech support.

Any Amount Due will be added to your Palmetto Electric account and will appear on your monthly statement within 60 days
